

Elacin ER20 Medium

The Elacin ER20 Medium earplugs are designed for occasional use, offering a standard fit for those with average to larger ear canals. While not custom-made, they provide excellent hearing protection without sacrificing sound quality, making them perfect for everyday activities.

With a fit optimized for the ear canal, the ER20 Medium earplugs preserve speech clarity and musical richness while reducing harmful noise to safe levels. A flexible grip allows for easy insertion and removal, ensuring comfortable and convenient use.

The Elacin ER20 Medium is an ideal choice for anyone looking for an upgrade from conventional earplugs, providing enhanced sound quality and protection.

Material + Colour

The earplugs feature soft silicone tips for a secure and comfortable fit in the ear, while the filter is made from a more durable material.

The ER20 Medium is available in white, with a neck cord for added convenience.

Filter

The ER20 Medium earplugs are equipped with a high-quality acoustic filter designed to maintain sound clarity while reducing noise levels. The durable filter provides consistent noise reduction across frequencies, making these earplugs suitable for a variety of environments.
