

Shokz OpenComm 2

Free to Move. Seamless to Connect.

Enhancing Workplace Experience
with Elacin and Shokz OpenComm2

Revolutionize workplace communication and safety with Elacin Hearing Protection, now enhanced by the dynamic capabilities of Shokz OpenComm2.

Elacin Hearing Protection seamlessly integrates with the dynamic features of Shokz OpenComm2. This collaboration, surpassing the mere pairing of gadgets, is meticulously crafted to simplify, secure, and enhance the daily work routine. It transforms the workspace into a hub for clear calls, reliable connections, and unrestricted movement.

Through the integration of Shokz OpenComm2, leveraging the signature open-ear design, with Elacin Hearing Protection, new possibilities unfold, providing heightened comfort and awareness. Experience the innovation of 7th generation bone conduction tech and reliable Bluetooth 5.1 connectivity – a significant upgrade to on-the-go communication. This synergy prioritizes the safety of hearing and communication in any work situation.

Elevate the mobile office – where Elacin meets Shokz, and clarity, protection, and freedom converge.
