

## Party | Elacin RC

Relax and catch up with your friends in a crowded cafe. Get the best out of your free time with Party Elacin RC hearing protectors.

### Intended users

For people who simply want to catch up with friends in a busy café and for fun-loving party-goers in various clubs and/or at festivals.

### Comfort

The new RC generation is also custom-made from medically classified soft silicone material.

### Optimal speech intelligibility

The new Elacin RC ensures even flatter attenuation. This guarantees optimal speech intelligibility and makes the RC the recommended hearing protector for work in (industrial) environments with a wide variety of noise levels. With this latest generation of hearing protection, Elacin offers users enhanced and continuous safety in the work place.

### Material + colour

Party Elacin RC hearing protectors are made from silicone (60 shore) material and supplied in white and with a cord by default.

### Especially for:

- + Visitors of
  - + clubs and pubs
  - + concerts and festivals

### Suitable for use in

- + Where speech intelligibility is important
- + Environments with harmful noise levels
