

Relax | Elacin Relax

If you want to sleep well, concentrate or arrive at your destination rested, Elacin Relax are the right earplugs for you. Relax Elacin earplugs are always the comfortable solution!

Intended users

Elacin Relax earplugs are intended for people who want to cut out background noise in order to be able to get a good night's sleep or to concentrate. For example, students and travellers, or people on shift work or those with a snoring partner.

The Elacin Relax earplugs are custom-made and come without a filter. The ear moulds are hollow on the inside and therefore very comfortable even when lying on a pillow.

Elacin Relax reduces the sound of a partner snoring or road or air traffic noise. These earplugs attenuate optimally without losing contact with the environment. Alarm and warning signals remain perceptible.

Material + colour

Elacin Relax is and manufactured from the very soft FlexFit material (hardness 40 Shore) and delivered in yellow by default.

Application of use

- + Partners of one who snores
- + Travelling by plane, car, train, bus etc.
- + Concentration during studying or working

Suitable for use in

- + Environment where you need to concentrate
- + Public transport
